Procedures to Remote Access SCM Lab Computers

1. A new student must activate his/her SCM computer account (The EID is the username) by changing the initial password through https://sprwp.scm.cityu.edu.hk/ before remote accessing the SCM lab computers.
2. Connect your computer to CityU VPN.
3. Open your remote access program:
   a. "*Remote Desktop Connection*" program from Windows 10 or
   b. "*Microsoft Remote Desktop 10*" Mac OS Apps (downloadable from the App Store).
4. Enter the following login information to the remote access program.

Required Field	Description	Example
Computer / PC name	IP address of the Animation Lab workstation you want to connect	144.214.225.30
Username	Using the format of **scmlab\EID**	scmlab\chantm1
Password	Your SCM computer account password	

where IP address range of the selected lab workstations are:

Lab	IP Address Range of Student Workstations
Animation Lab 1	144.214.225.18 - 144.214.225.34
Animation Lab 2	144.214.225.63 - 144.214.225.79
Computer Lab 1	144.214.225.106 – 144.214.225.115 144.214.225.140 – 144.214.225.154

Notes:

5. Remote accessing lab computers may not be so stable. **PLEASE SAVE YOUR WORK FREQUENTLY**.
6. User can login the remote computer by first-come-first-serve.
7. Current user needs to reject another user who may attempt to login to his/her remote computer.
8. Please restart the remote lab computer when you have finished your work.
9. CityU VPN will automatically disconnect after using 2 hours or if you have been idled for 1 hour. You may not be able to connect to the same computer again.
10. **DAILY RESTART** - Animation Lab 1, Animation Lab 2 and Computer Lab 1 workstations restart daily at **8:15 am, 6:45 am and 6:45am** respectively.
11. Connection Setup Guide to CityU Virtual Private Network (VPN)
12. "Microsoft Remote Desktop 10" Mac OS App
